### SKILLS

The experience I have gained from the various roles I have held throughout my career has provided me with a very full range of interpersonal skills. As a Front-End Developer, I have worked as a designer and engineer and have the ability to empathise with both disciplines, as well as understand the more technical side of product delivery.

- I bring innovative ideas and creative solutions to projects.
- I express myself clearly and effectively, both verbally and in writing, and I listen actively.
- I remain calm and efficient in high-pressure situations.
- I analyse situations from a variety of perspectives to make informed decisions.
- I have strong design skills to integrate functionality and aesthetics.
- I facilitate communication between developers and designers to ensure consistency.
- I proactively identify and address problems to achieve efficient solutions.
